FROM THE EDITOR'S DESK

WELCOME TO ISSUE 01, PONCHO

This is the first issue of a weekly magazine with a readership of one. It covers **Week 6 results** and the **Week 7 preview**, and it's built from 7h 28m of fantasy football video from 10 episodes that aired Oct 18-20: FFT's two Sunday Cheat Sheets, the last-minute Express, Winners & Losers and the early-waivers Express, plus Sal Vetri, Beyond the Box Score, BDGE and two Yahoo episodes.

Ground rules. Every stat and quote in here comes from the breakdown files, the Host Report Card or a live Sleeper API pull (Tue 12:07 PM ET). Where a meter is an editorial score, it says so, and the method is printed next to it. When the captions garble a name, we print the garble in brackets, as the hosts' own words.

The headline: the professionals went **38-37-9** on their gradable Week 6 calls, which is **50.6%**. Your teams split: **Taylor Snift** lost MAIN by 2.10 points with Diggs (16.9) and Kendre Miller (14.5) on the bench, and **Amon A Boat!** won DYNASTY 151.30-126.10 with the league's top Week 6 score.

The big gap this week is the dynasty show. FFT Dynasty hasn't posted since Oct 14, so the Dynasty Corner leans on dynasty-relevant buy/sell calls from the other shows. Details are on the back page.

THE BIG SIX · PART 1

THE STORYLINES THAT ATE THE WEEK

01 THE GERMIE GOSPEL

A Sunday-morning punchline becomes Monday's #1 add, and Freddy owns him.

Sunday at 9 AM, Adam waved off Germie Bernard as a league winner: *"I feel like a league winner has to be like 17 and a half or more fantasy points. There's no way Jeremy Bernard is getting there."* Bernard went **11-87-1 on 12 targets for 25.7 PPR (WR3)**, and Yahoo noted the 11 catches are a Steelers rookie record. By Monday he was the consensus #1 add for Jamey, Adam, Sal, Josh, Hayden and Matt, with Nick calling him a WR3, and he was the only player all six Monday episodes discussed. Sal: *"I would spend probably 100% of my fab in most of my leagues."*

The Freddy angle: Bernard is on Freddy's DYNASTY team, and he's in Freddy's Week 7 lineup. Nick says *"I get it if you want to sell"*, so if Freddy will ever take an offer, it's at peak price right now.

02 THE HAMSTRING HEARD 'ROUND THE LEAGUE

Adams goes down, and Taylor Snift's WR room goes to Coker, Worthy and a FAAB prayer.

Davante Adams ruptured his hamstring and is out 6-10 weeks (McVay, Monday, per AP/NFL.com in the BTBS fact check and Waiver Intel). None of the hosts had it on air. For Poncho, it's a starter gone: Adams scored **112.25 MAIN points in 6 games (18.71 a week)**, second among your MAIN skill players behind Jonathan Taylor. He's now on IR in Sleeper, and Jordan Mason is on the bench.

The fix is **Omar Cooper Jr.**: 6-103-1 on 7 targets, 51 of 62 snaps, Jamey's waiver "headliner" and the #1 add for both Josh and Joel. The caveat from Nick and Adam is Adonai Mitchell's return. Josh suggests a normal-league bid of 10-12%. Waiver Intel says **$121** (84% of your remaining $144), because with four Week 7 byes (Allen, Hampton, Coleman, Diggs) your only healthy, playing WRs are Coker and Worthy.

03 THE GIANTS QB SOAP OPERA

Five shows, one starting job, and a head coach who sat his RB to prove a point.

J.J. McCarthy was the most-mentioned name on Monday (≈50 caption hits across 5 episodes). Hayden: McCarthy *"is going to start more games than Jameus [Jameis] Winston for the rest of the season... a guarantee."* Josh: *"I'd be shocked if he doesn't start next week."* Adam, on W&L: Winston *"probably starts next week at Houston"*, and Jamey agreed. Waiver Intel says Harbaugh is "honing in on a decision," and motownmatt dropped Winston in MAIN at 7:43 this morning.

The B-plot: Cam Skattebo got **zero carries**, after Jamey said he was *"still... going to still lead the Giants in carries"* (Brick of the Week). Adam, in a Giants hoodie, at Harbaugh: *"You proved your freaking point. Congratulations... you cost yourself a game."*

THE BIG SIX · PART 2

...AND THE REST OF THE WEEK

04 WALKER SZN: THE REVENGE GAME

Poncho's DYNASTY cornerstone heads to Seattle on Sunday night.

Kenneth Walker went **19-128-2** in Week 6. Dave's stat: he's the first player since **Priest Holmes** with 750+ scrimmage yards and 8 TDs through his first five games. Nick on the KC @ SEA revenge game: *"He's going to go nuts."* Hayden has him in the OPOY mix, and Adam would take Walker over Bijan the rest of the way, while Heath says Bijan in PPR and Walker in non-PPR.

For Amon A Boat!, Walker is the engine: **140.0 DYNASTY points (23.33 a game)**, the most on your roster, including 27.9 in Week 6. Freddy owns his handcuff, Emmett Johnson.

05 THE GREEN BAY SELL-OFF

All three Beyond the Box Score hosts would sell Josh Jacobs, and Nick is the lone holdout.

Jacob found Green Bay's backfield at **14.2 expected fantasy points a game**, "by far the lowest" he looked at (32nd in YPC). Adam: *"I am not viewing him as a savior... I think he's going to be an RB2."* Dan would take Chase Brown *"in a heartbeat"*, and the live poll went Chase Brown 73%, Jacobs 27%. Nick (BDGE) dissents: Jacobs comes back as *"a 20 touch guy."* That's head-to-head H2 in the ledger, and it settles after Week 7.

06 THE CHARGERS BACKFIELD FUNERAL

Hampton managers were congratulated for dropping him.

Vidal, Hampton and Mitchell combined for **43 yards**. Matt Harmon: *"If you have to start a Chargers running back, your team is banged."* Adam, on someone dropping Hampton: *"Congratulate them."* Heath, Dave, Nick and Hayden all faded the backfield too, making it the week's most unanimous fade. Poncho's Hampton has 83.75 MAIN points this season (13.96 a game) with 9.9 in Week 6, and LAC is on bye in Week 7.

THE DISCOURSE INDEX

MOST-DISCUSSED PLAYERS

Who the hosts couldn't stop talking about. The bar chart adds up the approximate caption-mention counts printed in nine of the week's breakdowns (BDGE's breakdown doesn't count mentions). FFT ran five episodes, including two long Sunday-morning Cheat Sheets, so its Sunday start/sit names lead the totals. The table covers **breadth** instead: how many of Monday's six episodes discussed each player.

* The source breakdowns flag these counts as inflated: Rachaad White (the regex also catches the word "White"), Jordan Love ("love"), Germie Bernard (P1 includes Giovani Bernard jokes), Omar Cooper Jr. (Yahoo count includes "Cooper DeJean/Rush"), Tre Tucker (includes Sean Tucker). Treat every count as ± a few.

BREADTH: MONDAY 10/19, SIX EPISODES

PLAYER	EPS	≈MENT.	🟢	🔴
Germie Bernard	6/6	21+	7	0
J.J. McCarthy	5/6	50+	5	1
Omar Cooper Jr.	5/6	25+	4	2
Kendre Miller	5/6	21+	2	3
Cam Skattebo	4/6	30+	1	3
Aaron Rodgers	4/6	26+	3	0
Kenneth Walker	4/6	24+	4	0
Colston Loveland	4/6	24+	5	0
Jalen Coker	4/6	22+	3	0
A.J. Brown	4/6	20	4	2
Jaylen Warren	4/6	18+	4	1
Rome Odunze	4/6	16+	1	2

From the Host Wrap-Up heat table. "+" means Nick (BDGE) discussed the player too, though his breakdown has no count. 🟢/🔴 are the number of hosts who took a bull or bear side.

NERD NOTE: Rachaad White's #2 spot is mostly FFT's Sunday WAS-committee triage plus the word "white." Breadth tells you more: **Bernard** (6/6), **Cooper Jr.**, **McCarthy** and **Kendre Miller** (5/6) were the names everyone carried into Week 7.

SHOW SHARE OF THE CHATTER

EDITORIAL METERS · CLEARLY LABELED

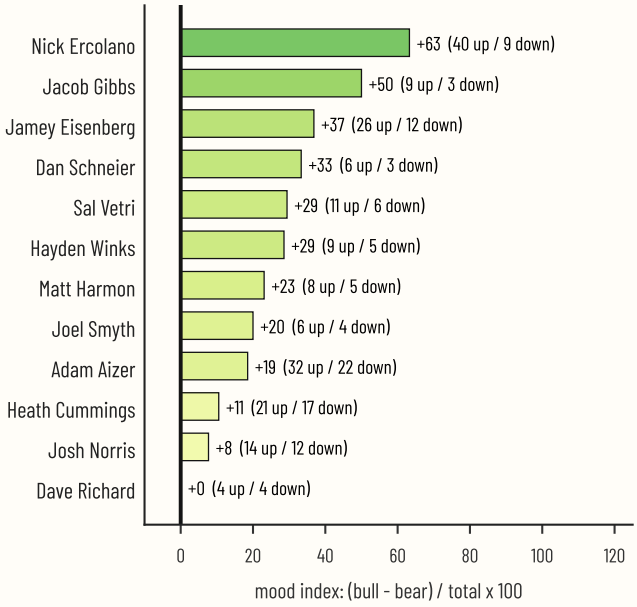

HOT-TAKE METER & MOOD METER

HOT-TAKE METER EDITORIAL SCORE

How it's scored: 3 pts for each spot on the Host Wrap-Up's "Hottest takes" list, 2 pts for each head-to-head where the host stood alone on a side, 1 pt for each other head-to-head side, and 1 pt for each graded "bold" call in Week 6. The top host is scaled to 10. It's a formula applied to the breakdowns, but choosing those inputs was an editorial call.

MOOD METER EDITORIAL SCORE

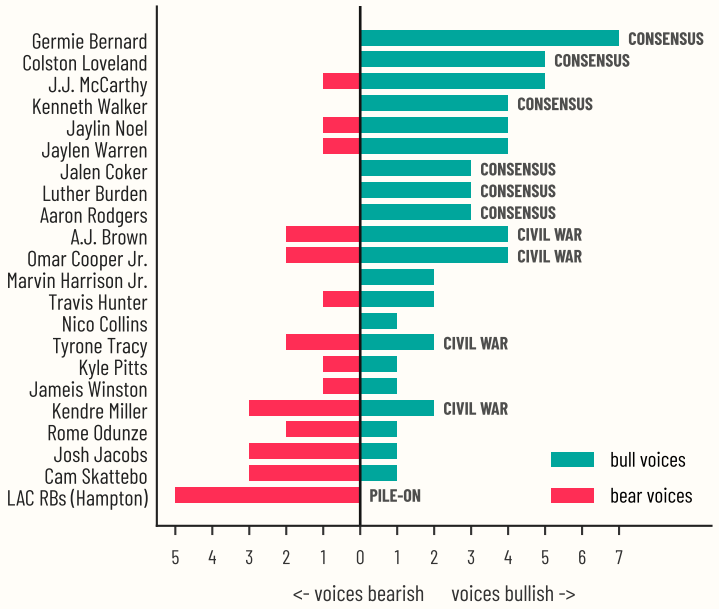

How it's scored: it counts the players each breakdown's host profile lists under "Bullish" and "Bearish," across every episode the host appeared in this week. Index = (bull − bear) ÷ total × 100. Nick's BDGE profile has no lists, so his index uses the verdict column in his player table instead, and isn't strictly comparable. Dave (0) was the only host with even bull and bear lists. Nick and Jacob were the sunniest.

SIGNATURE TAKES (VERBATIM FROM THE BREAKDOWNS)

Matt Harmon 10.0	"this Rams team is overrated." Also: BTJ might be traded "by the end of the week."
Nick Ercolano 10.0	Walker vs SEA: "He's going to go nuts." Gibbs over Bijan at 1.01.
Adam Aizer 10.0	"You proved your freaking point... you cost yourself a game" (at Harbaugh).
Dan Schneier 9.2	"if Naji [Najee] Harris is cut today... no team claims him the rest of the season."
Jacob Gibbs 8.3	Nico Collins could be "a top five type of fantasy receiver."
Sal Vetri 8.3	"Brian Thomas had one game more than three targets this season. He's unusable in fantasy."
Heath Cummings 8.3	"the Rams are going to score a billion points against Arizona." (They scored 16.)
Hayden Winks 5.8	McCarthy starts more games than Winston ROS: "a guarantee."
Josh Norris 5.8	"this has to be the end for at least Chris Ballard."
Jamey Eisenberg 2.5	"I would go with Bernard, but I know I'm in the minority there." (Call of the Week.)
Dave Richard 1.7	"If you can sell high on Abuka [Egbuka], you you have an out."

CONSENSUS VS CONTRARIAN

THE SPREAD: CONSENSUS VS CIVIL WAR

Each bar counts the voices (hosts, plus the Yahoo waiver list once) that took a bull side (right) or a bear side (left) on Monday, from the Host Wrap-Up's consensus heat table. CONSENSUS means 3 or more bulls and no bears. CIVIL WAR means at least 2 on each side. PILE-ON means 3 or more bears and no bulls.

THE CONSENSUS PLAYS

- **Germie Bernard:** 7 bull hosts, 0 bears. The table's only unanimous #1.
- **Kenneth Walker:** Nick, Hayden, Matt and Adam bullish; 19-128-2.
- **Colston Loveland:** 5 bulls (Heath, Nick, Matt, Jacob, Dan); 6-65-1. He's on Freddy's DYNASTY team too.
- **Jalen Coker:** Matt has him top-20 ROS with top-12 upside. 6/97 on 13 targets. **He's yours in MAIN.**

THE CIVIL WARS

- **A.J. Brown (4 bulls, 2 bears):** Jacob calls him a "super obvious" buy, Josh and Matt are on decline watch.
- **Kendre Miller (2 vs 3):** Hayden says the backfield *"absolutely is Kendre Miller's"*; Sal says *"I'm not interested in a three-headed backfield."* **He's on your MAIN bench.**
- **Josh Jacobs (1 vs 3):** Nick alone against all of BTBS.
- **Tyrone Tracy:** Dan says *"On tape, he looks like the best Giants running back"*; Sal says *"Let your idiot league add"* him.

THE PILE-ONS

- **LAC RBs (0 vs 5)** and **Skattebo (1 vs 3; Sal is his last friend)**.

WHO SIDED WITH WHOM

Columns are sorted from consensus (left) to pile-on (right). Nick took a side on 15 of the 22 names (Adam is next with 11). *The Yahoo waiver list counts as one voice, on Noel.

THE LEDGER

15 OPEN DISPUTES, LOGGED AND WAITING ON WEEK 7

Every cross-show disagreement from Monday is tagged `[H2H-1019-#]` in the shows' prediction logs, and the Report Card will settle each one when the games do. Here are the sides as the Host Wrap-Up recorded them. Next week's issue prints the winners.

#	TOPIC	SIDE A	SIDE B
H1	**NYG Week 7 QB**	Josh Norris: "I'd be shocked if he [McCarthy] doesn't start next week"	Adam Aizer: Winston "probably starts next week at Houston" (W&L) and deserves another shot (BTBS); Jamey (W&L): Winston starts at HO
H2	**Josh Jacobs ROS**	Nick Ercolano: "a 20 touch guy" on return	Adam Aizer: "I think he's going to be an RB2" (~RB15); Dan and Jacob agree: sell
H3	**A.J. Brown**	Jacob Gibbs ("super obvious" buy), Sal ("not a sticky stat"), Heath (will "start catching the ball")	Josh Norris (drops, booed), Matt Harmon ("on AJ Brown decline watch")
H4	**Kendre Miller (Poncho's MAIN bench)**	Hayden ("absolutely is Kendre Miller's"), Adam ("clear goal-line back")	Sal (three-headed, ≤5% FAAB), Nick ("top dog" in a three-way split), Jamey ("touchdown dependent")
H5	**Cam Skattebo**	Sal: benching is a "oneweek thing," plays more than 6 snaps	Adam ("Is it even worth keeping..."), Nick ("You just got to take the L")
H6	**Tyrone Tracy**	Dan Schneier: "On tape, he looks like the best Giants running back"	Sal: "Let your idiot league add Tyron Tracy"; Hayden: first NYG RB in his Wk 7 ranks "might start with the four"
H7	**Omar Cooper Jr. vs Adonai Mitchell**	Hayden: Cooper beats Mitchell ROS; Jamey: WR3 ROS	Nick: "hesitant" because Mitchell "is really their wide receiver two"; Adam: Mitchell plus Garrett Wilson cut in
H8	**Kyle Pitts**	Heath: winner, target share up four straight weeks	Nick: "a lot of garbage time production"
H9	**Egbuka**	Dave Richard: 37% share won't hold, sell-high "off ramp"	Nick and Matt: buy low with Baker back
H10	**Travis Hunter on offense**	Sal: "too valuable on defense," not a consistent option	Matt (bullish), Nick (add), Yahoo waiver list
H11	**Isaiah Likely ROS**	Dan: TE5	Jacob: TE10, Tyler Warren clearly ahead
H12	**Jaylin Noel**	Dan: buy (2.53 YPRR, tape)	Jacob: playing time stays limited, MHJ more likely full-time
H13	**George Pickens**	Jacob: had been "saying buy"; Adam: hold	Dan: "don't buy at all," could be checking out
H14	**Are the Rams just bad?**	Matt: "this Rams team is overrated"	Josh/Hayden: "this roster is better than two and four"
H15	**Walker vs Bijan ROS**	Adam: "I think I'm taking Walker"	Heath: Bijan in PPR, Walker in non-PPR

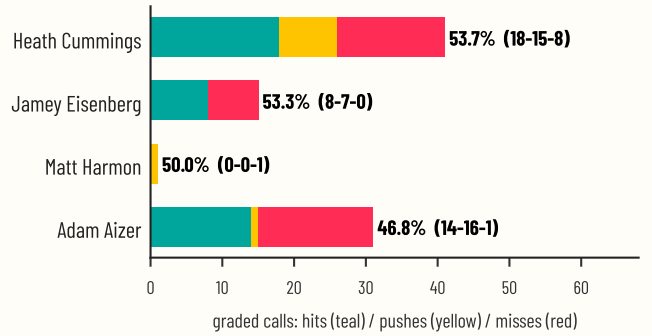

Poncho's stake: H4 (Kendre Miller, on your MAIN bench), H7 (Omar Cooper Jr., your $121 MAIN claim), H15 (Walker, your DYNASTY RB1) and H13 (no Pickens on your rosters, so you can just enjoy that one).

CALLS IN ESCROW

Week 7 is the first real test for Sal, BTBS, BDGE and Yahoo. Among hosts who haven't been graded yet, Nick (24 pending) and Sal (18) have the most riding on it.

WHAT THE GRADES MEANT FOR YOU IN WEEK 6

MAIN · Taylor Snift: L 139.45-141.55 vs FickYourNail. Heath's "one of Coleman or Shakir will be good" call hit (Coleman 16.65). His Worthy-over-Ladd-and-Keenan pick graded as a push: Worthy beat Ladd, but Keenan was the best of the three (your Worthy scored 15.05). Heath's "a billion points" for the Rams didn't: your Rams DST scored 5.5. The 2.10-point loss came down to the bench, where Diggs (16.9) and Kendre Miller (14.5) sat. No host told you to bench Diggs.

DYNASTY · Amon A Boat!: W 151.30-126.10 vs ConanWanderer. Heath's Keenan-as-top-36 call hit (16.2, WR17), and Adam's "White could be okay" came good (15.7). Trevor Lawrence put up 27.34 (QB1) on your bench, after both hosts took Cousins over him. You won by 25 anyway.

Honorable mentions: Heath: "this is a big James Cook kind of bounce back from the fumbles kind of game" vs LV → Cook 22-95-1 + 3-58, 24.3 PPR (RB4); BUF won 33-30 · Heath: Tyler Shough outscores Caleb Williams (Adam took Caleb) → Shough 26.96 (QB2) vs Caleb 16.5 (QB15) · Heath: Tre Tucker: "He's gonna have a good game eventually" → "Eventually" was that afternoon: Tucker 5-97-2, 26.7 PPR (WR2)
Dishonorable: Heath: "the Rams are going to score a billion points against Arizona" (while sitting Corum) → Rams scored 16 and lost 18-16 at ARI · Heath: Rhamondre Stevenson ≈ RB17 (down from RB14 with TreVeyon back), one spot ahead of Woody Marks → Stevenson 14-36, 3.6 PPR (RB48); Woody Marks 10.1 (RB22) beat him · Heath: Cyrus Allen "is going to be close to a full-time player today"; breakout? "It might be" (46:34) → Cyrus Allen played 9 of 61 snaps (15%), 2-27

DYNASTY BUY / SELL CORNER

DYNASTY CORNER: BUY THE DIPS, SELL THE PACKERS

⚠️ **HONEST LABEL:** FFT Dynasty hasn't posted a new episode since **Oct 14** (FtpgaRxWDp4, "Week 5 Dynasty Recap"). Nine checks between Oct 18 and Oct 20 came up empty, and its predictions log is empty. So this corner is assembled from **dynasty-relevant buy/sell calls on redraft-first shows** (mostly BTBS's buy-low segment, plus FFT W&L, BDGE, Sal and Yahoo). No trade-calculator or draft-pick values were used. The "DYN owner" column is from the live Sleeper rosters.

YOUR DYNASTY CORE, PER THE HOSTS

- **Kenneth Walker:** "a fantasy revelation" (Nick). Hold. He's the cornerstone.
- **Tyler Warren:** Jacob has him "clearly ahead" of Likely at TE ROS. Hold.
- **Breece Hall / Braelon Allen:** Heath still sees Breece as the lead back when he returns; Josh says Braelon keeps "a legitimate role." Hold both.
- **Rome Odunze:** Dave calls him "a bye week replacement… maybe a desperation play"; Dan says buy "any Bears." He's a WR4 for now.
- **Keenan Allen:** Sal calls him "extremely consistent," and Heath calls him "the thief."

THE FREDDY ARBITRAGE

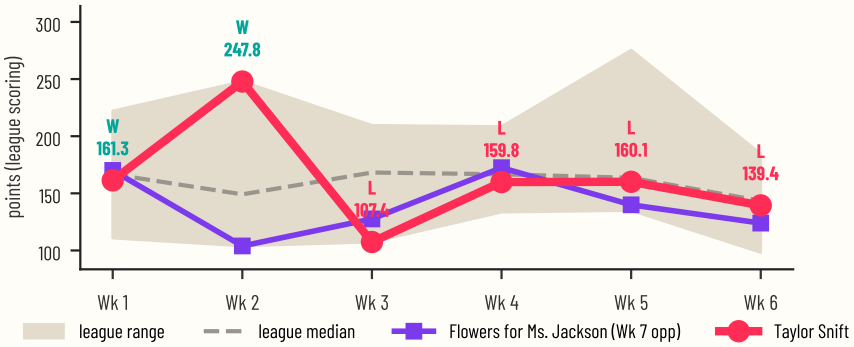

Freddy's DYNASTY team holds the week's #1 consensus name (**Bernard**), the 5-bull TE (**Loveland**), Sal's stash (**Dylan Sampson**), Jamey's TE add (**Hunter Henry**) and **TreVeyon Henderson**. Per Yahoo, NE is now a "three-person" backfield after Kiner took over following Henderson's fumble. If you sell Freddy anything, sell him the story that Henderson's fine.

WEEK 7 GAME PLAN

THE WEEK 7 CHECKLIST, AND THE FREDDY WATCH

🧲 WAIVER CLAIMS: PROCESS WED ~3:05 AM ET (MAIN) AND ~3:10 AM ET (DYN)

MAIN ($144 left): **Omar Cooper Jr. $121**, no drop · **Malik Washington $12** (Cooper insurance) · **Will Reichard $3**, drop Fairbairn · **HOU DEF $1**, drop LAR DEF (vs NYG, implied 16.25).
DYN ($77 left): **Kyler Murray $4**, drop Ekeler · **DeMario Douglas $3**, drop Justice Hill · **Jaylin Noel $3**, drop Josh Cameron · then activate **Tank Dell** (he plays Sunday, per DeMeco Ryans) and drop CJ Donaldson.

Bids and drops are straight from Waiver Intel (Tue 8:21 AM ET). The magazine just reprints them.

🚨 LINEUP AUDIT (SLEEPER, TUE 12:07 PM ET)

- **MAIN:** one **FLEX slot is empty**. Kendre Miller (bench; Yahoo/Waiver Intel's Week 7 flex) or Cooper, if the claim hits. Ollie Gordon is **Questionable**. Mahomes is in for Allen (BUF bye).
- **DYN: Breece Hall, T.J. Hockenson and Tyler Warren** are all in the Week 7 lineup and all listed **Out**. Rodgers is at QB (Daniels and Lawrence are on bye).
- **Set lineups by Sun 9:30 AM ET:** PIT @ NO is in Paris (Rodgers, Kendre Miller, Dowdle, Donaldson).
- WAS bye: Diggs (both leagues), White, Daniels. McLaurin's MNF knee injury could make Diggs WAS's WR1 after the bye (Waiver Intel).

🌸 FREDDY WATCH

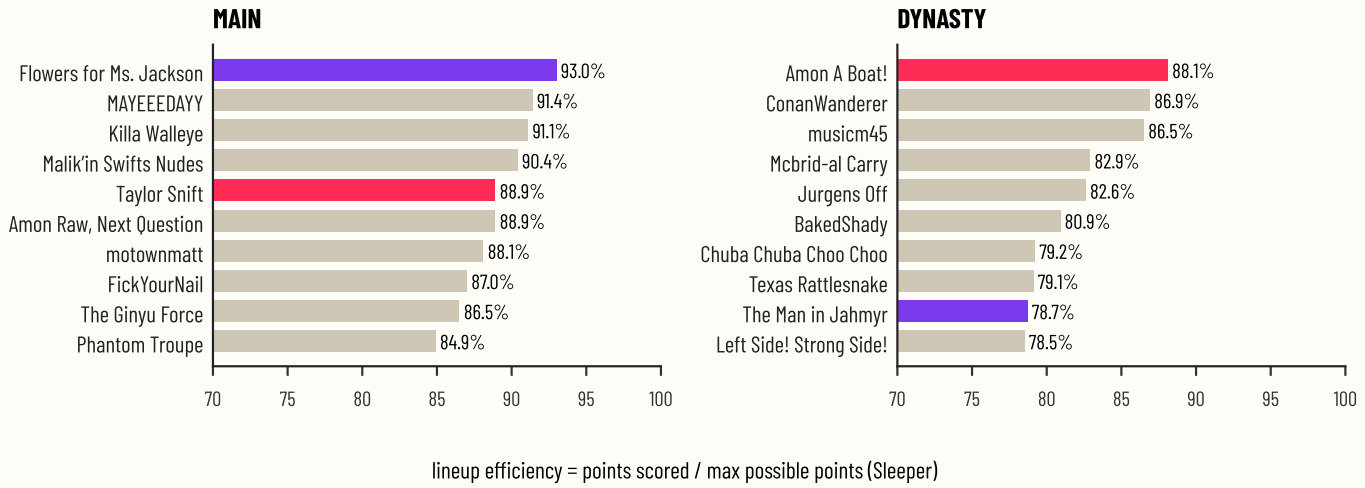

MAIN · Week 7 · Taylor Snift vs Flowers for Ms. Jackson

837.95
Freddy's MAIN points-for, **last of 10**. You've scored 138.05 more than him.

901.05
Freddy's *max possible* points-for: lower than the actual points-for of 8 of the other 9 teams. His perfect lineup would still be 9th.

93.0%
MAIN's best lineup efficiency belongs to... Freddy. He starts his best players every week. They just aren't good.

His Week 7 lineup as currently set: Cousins, Pierce, Bijan, Zay Flowers, Metcalf, Kelce, Juwan Johnson, Vele, Cam Little (K), JAX DEF. Jacksonville is on bye in Week 7, so that's **a kicker and a defense on bye** (Waiver Intel: "his K slot is empty this week"), and Yahoo points out he loses Jakobi Meyers too. Also on the radar: Lamar is on his IR (day-to-day, per Waiver Intel), and he's starting **Dameon Pierce**, whose role Hayden calls "too big to fail" while Saquon is 50/50 for MNF (Nick). The Reichard claim is partly a denial play. Head-to-head form: you average 162.67 a week, and Freddy averages 139.66.

Red = Poncho, purple = Freddy. Efficiency = points scored ÷ Sleeper's max possible points (best legal lineup each week).

HOW THE NUMBERS WERE MADE

- **Mentions** are the approximate caption counts printed in each breakdown, summed. They're alias regexes over auto-captions, so treat each one as ± a few; the inflated ones are flagged.
- **Luck** = actual wins − all-play expected wins (all-play wins ÷ 9). **Efficiency** = PF ÷ Sleeper's max PF.
- **Hot-Take** and **Mood** meters are **editorial scores**, built by formula from the breakdown text (methods on page 6).
- Grades are the Report Card's (Sleeper stats + ESPN scores), not re-graded here.

DATA GAPS (HONEST EDITION)

- **FFT Dynasty: nothing new.** The last episode was Oct 14 (Week 5 recap), and every check from Oct 18-20 came up empty. Its predictions log is empty, so the Dynasty Corner relies on other shows' buy/sell calls.
- **BDGE** has no mention counts, so Nick appears in the breadth table but not the mentions bar chart. His mood index uses player-table verdicts instead of profile lists.
- **Only FFT (plus one Yahoo call) has been graded.** Every call from Sal, BTBS, BDGE and Yahoo except one is still pending, and they get their first grades after Week 7.
- **No week-over-week trends yet.** This is Issue 01, and the leaderboard's 3-week trend starts filling in next week.
- **FFT's Week 7 Waiver Wire stream** (xDb5LZhuC88, Tue) was still being processed when this went to press, so it isn't in this issue.
- Injury designations are as of the Sleeper pull, and Week 7 practice reports start Wednesday. Adams' "Knee" tag in Sleeper conflicts with the reported hamstring; the magazine goes with McVay's diagnosis as reported (AP/NFL.com).
