FROM THE EDITOR'S DESK

ISSUE 02, PONCHO — THE FINAL TUESDAY EDITION

This is the scheduled Tuesday issue. Monday night's early cut went to press before MNF ended and before final grading; this edition replaces it with **Week 7 complete** (MNF: DAL 38, PHI 21), the **final Report Card**, and the **Week 8 preview** from 12h 42m of tape across 15 episodes (FFT Rankings, Mailbag, two Sunday Cheat Sheets, last-minute Express, Winners & Losers, early Week 8 Express; Sal Sunday Q&A and Week 8 Must Adds; BTBS 9 League Winners and today's **Week 7 Recap**; BDGE 10 Confusing Players; Yahoo Start/Sit Q&A and today's **Week 8 Waiver Wire** with Josh & Joel; plus the Oct 20 FFT Dynasty recap).

Ground rules unchanged: every stat and quote comes from the breakdown files, the Host Report Card, Tuesday's Waiver Intel, a live Sleeper pull (Tue Oct 27 ~12:10 PM ET), or the Yahoo files in myleague/yahoo/. Editorial meters say so on the page.

The headline: Freddy dropped **168.45** on Taylor Snift (**111.10**) in MAIN — Zay/Jameson/Bijan did the damage — and in DYNASTY you draw him next, both 3–4. Amon A Boat! lost Week 7 to BakedShady 116.28–164.32.

Data gaps: **Yahoo Josh & Hayden Week 7 Recap** still PENDING (captions 429; German-only transcript). FFT's Week 8 waiver livestream and BTBS Risers + Fallers weren't broken down at press time. **Yahoo files are stale** (Sun 10/25 5:58 PM ET), so both Yahoo Week 7 finals on p.14 are Waiver Intel estimates, not confirmed results.

THE BIG SEVEN · PART 1

THE STORYLINES THAT ATE THE WEEK

01 FREDDY FLOWERS BLOOMED

Zay, Jameson and Bijan put 83.25 on Taylor Snift. Rematch is DYNASTY Week 8.

Freddy's MAIN lineup went nuclear: **Zay Flowers 32.70** (8-137-1), **Jameson Williams 26.60** (5-91-2), **Bijan Robinson 23.95**, with Saquon adding a TD on MNF (7 carries, 62 yds, TD on 9–10 snaps, then left with a back issue; Sleeper Q) to finish **168.45–111.10**. Your side: JT (24.25) and Ollie Gordon (28.05) carried for 52.30, but Mahomes (8.15), Worthy (4.35), Coker (1.90) and LaPorta (3.05) combined for 17.45. Dan called Zay this year's JSN with Lamar; the W&L panel expects Lamar back Week 8.

The rematch shifts to DYNASTY: **Amon A Boat! vs The Man in Jahmyr**, both 3–4. Freddy just lost 123.52–171.74 to durk18 and benched Loveland (19.90) again.

02 THE OMAR COOPER GOSPEL

Jamey benched him. He scored 22.5. Now Sal says number one add by far.

Jamey stashed Omar Cooper Jr. in the Mailbag. Cooper went off for **22.5**. By Monday, Sal called him the number one add by far and Jamey moved him into the starters-now pile with Adam bullish. Tuesday, Josh and Joel made him the **#1 add for both** (Joel: ~50% of remaining FAAB) and Josh retracted his Germie Bernard pick: “we're going to go with Omar Cooper Jr. the rest of the way.” On BTBS, Dan has him “in the WR2 mix” while Geno plays.

For you: the actionable Diggs read is Jamey calling him a borderline must-start wide receiver starting in week 8 with McLaurin out. Diggs is on your MAIN and DYNASTY benches (MAIN: 71.9 pts on roster, WAS bye Week 7).

03 WILLIS ON THE BENCH, AGAIN

28.02 from Malik. 13.08 from Rodgers. Your DYNASTY QB slot is the story.

Malik Willis put up **28.02** DYNASTY points on your bench while Aaron Rodgers started for **13.08**. Season: Willis has 90.6 on the roster (12.94 PPG). Josh calls him startable in superflex vs DET/IND/BUF after NE (Joel didn't love the NE spot). Tuesday's Waiver Intel projects Lawrence (20.65) as your top DYN QB and makes Rodgers the cut.

Related: Tank Dell is on HOU's Week 8 bye; Shaheed (knee) is still Out on Sleeper, though Macdonald says “early returns are positive.” Diggs + Caleb Douglas are the WR fill-ins the hosts like.

04 THE LEMON SQUEEZE

Joel said eight targets. Lemon saw eight. Now he's a three-league add.

Recorded before MNF, Joel Smyth said he "wouldn't be shocked if... he ended the day with eight targets." Makai Lemon went **7/8, 67 yards, 1 TD** on 91% of snaps with DeVonta Smith and Wicks out (20.4 MAIN pts, 19.7 PPR). Sal: "We have to add Makai Lemon at this point."

He's free in MAIN, so Tuesday's Waiver Intel has **$14** on him (drop Andrews) as Coker-shoulder insurance, and lists him for HEROES and SUPERFLEX too, if he's still on the Yahoo wire.

...AND THE REST OF THE WEEK

05 JACOBS IS BACK

~63 mentions Monday. Heath wants a big Thursday. Sal says buy. BTBS flags the snaps.

Josh Jacobs led Monday's Host Wrap heat table at **~63 mentions**. He scored 20.1 PPR in Week 7 after returning from the commissioner's exempt list. Heath: big Thursday vs CAR. Sal: buy, top-20ish RB. Dave: top-12 close. The asterisk, from Adam on BTBS: **52% of snaps**, below the reported expectation. He's your HEROES starter on TNF.

06 THE EMMETT JOHNSON ARBITRAGE

Sal: league winner instantly. Jamey: single best stash. Freddy has him on taxi. You own Walker.

Kenneth Walker is still your DYNASTY engine (**149.7 pts, 21.39 PPG**, 9.7 in Week 7). Behind him, Freddy owns **Emmett Johnson on taxi**. Sal: He'd be a league winner instantly. Jamey: the single best stash you can have. Ideas only — nothing gets offered without your OK.

07 THE WORRY BOARD

BTBS ranked it: Henry, Nico, Chase Brown, then Garrett Wilson most.

Monday's Host Wrap bears: **Nico Collins** (Dan sell, Jamey sell-while-high; 2.6 in Wk7), **Garrett Wilson** (4.6), **Chase Brown** (Jamey Bad). BTBS's recap put an order on it. Dan, least to most worried: Henry, Nico, Chase Brown, **Garrett Wilson**. Adam: Nico's 23.2% targets per route is his lowest in 4 years, but he's still "a number two receiver"; Chase Brown played 75.5% of snaps and lost a goal-line TD; Henry is "purely a Lamar issue" (Dan). Tony Pollard went the other way: 36.5 PPR.

🌸 FREDDY WATCH

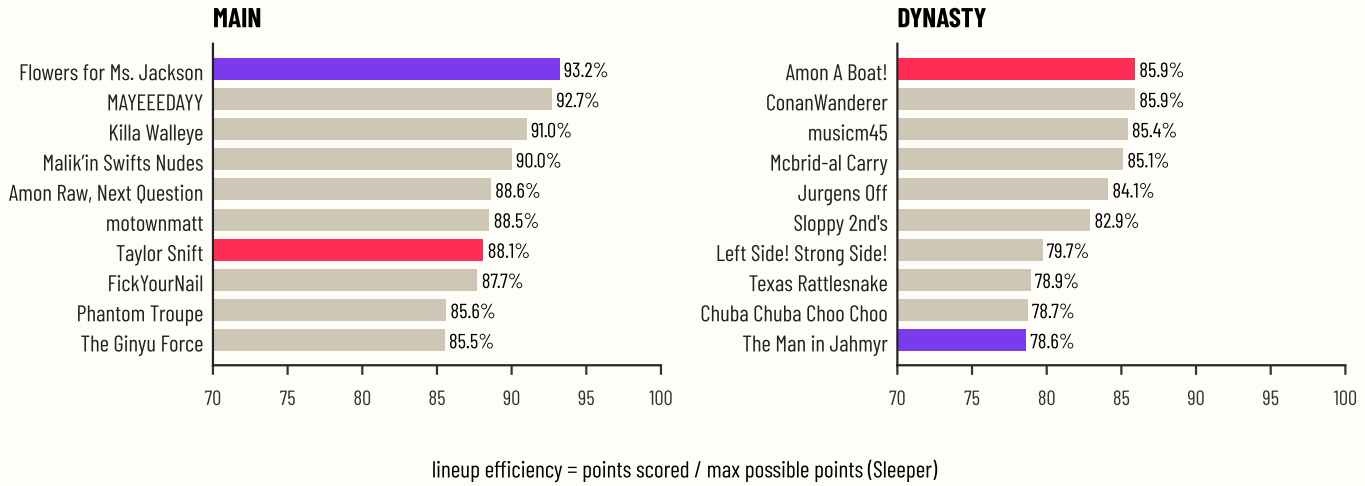

DYNASTY Week 8 · Amon A Boat! vs The Man in Jahmyr · both 3–4

168.45
What he just dropped on you in MAIN. Zay 32.70 · Jameson 26.60 · Bijan 23.95.

19.90
Loveland on his DYN bench (again). Dave's top-12 TE call hit.

3-4
Both of you. His Wk7 DYN loss: 123.52–171.74 to durk18.

His DYN holes this week: Noel (turf toe / walking boot, HOU bye), Fannin sit vs PIT (Jamey), Mumpfield (still a starter; Sleeper's #1 trending drop, 305k). $66 FAAB, no moves since Monday. **His ceiling:** Gibbs, Goff, Jameson all play MIN–DET (same game as your Amon-Ra; BTBS calls it a Goff-downgrade spot). **MAIN:** he draws dmajewski11 (who just cut his K and DEF); MNF hit his backfield — Saquon's back (Q), Pierce hurt on a kickoff return. If he cuts Kaelon Black to activate Lamar, Waiver Intel says claim him. Trade ideas (Emmett Johnson; Corum/Kyren for Diggs; Allen/Mahomes for Jameson) stay on ice until you OK them — nothing sent.

Red = Poncho, purple = Freddy. Efficiency = PF ÷ Sleeper max possible (settings basis; may lag one week).

HOW THE NUMBERS WERE MADE

- **W-L / PF through Wk7** computed from Sleeper matchup points (settings W-L lagged one week at press time).
- **Mentions** = caption counts printed in each breakdown, summed.
- **Hot-Take / Mood** = editorial formulas (methods on p.6).
- **Scoring:** Sleeper numbers use each league's own settings (MAIN custom PPR + first downs; DYN full PPR). Report Card grades use full PPR. Yahoo numbers are Yahoo's own, from the stale files.
- Grades = Report Card / leaderboard JSON, not re-graded here.
