FROM THE EDITOR'S DESK

# WELCOME TO THE ROAST, PONCHO

This week the magazine stopped being polite. Starting now, it runs at 1 AM on Tuesdays, when only real sickos are awake. You went **2-2 across four leagues** (pending the Yahoo HEROES final). Freddy went **0-2**, which honestly is the bigger story.

The ground rules haven't changed. Every number comes from the files: the 11/2 Host Wrap, the Sunday Final Wrap, the 11/2 Freddy Spotlight, the Sal and FFT Dynasty breakdowns, `host_leaderboard.md`, a Sleeper API pull (Tue 11/3 ~1 AM ET), and the Yahoo live pull (Mon 11/2 8:50 PM ET, MNF Q1). The jokes are ours. The stats aren't.

**Honest gaps:** the season leaderboard is still **graded through Week 7**; Week 8 grading lands in Tuesday's report card. Both Yahoo Week 8 scores were captured during **MNF Q1**. HEROES still had Swift and Odunze playing, so it's "basically a W," not a confirmed one. The hot-take and mood meters are editorial and labeled that way.

THE BIG STORYLINES

# BALTIMORE DIED, DENVER GOT A NEW RB, AND FREDDY KEPT STARTING THE CORPSE

## 01 LAMAR TO IR. TWO PONCHO TEAMS AND ONE FREDDY TEAM DIDN'T GET THE MEMO

Monday news: Lamar's on IR after thumb surgery (Nick: 6-12 weeks), and Huntley has turf toe, so **Joe Fagnano** likely starts TNF at JAX. Jamey, Heath, Dan, Theo, Nick, Josh and Hayden all downgraded Baltimore. Freddy started Lamar in MAIN for 0.0. Poncho started him at QB in SUPERFLEX for 0.0. That's a tie for the dumbest decision of the week, and nobody wants that trophy.

## 02 THE JONAH COLEMAN COALITION

Eight hosts, zero short-term dissent: Dave, Adam, Dan (5/5), Jacob, Theo, Nick ("basically a must start") and Josh. Week 8: 20.4 PPR (RB11). Adam said "If Jonah Coleman is available, drop everything... I would drop Omarion Hampton." Poncho's Hampton scored 6.95. Adam wasn't talking to you, but he could have been.

## 03 RACHAAD WHITE SAVES THE BOAT

Freddy led Poncho by 2.86 with 3:43 left in SNF. White ripped off 3 carries for 37 yards and a TD, going from 4.30 to 14.00. WAS 27, PHI 10. Santos tacked on 11 Monday. Final: **143.38–125.54**. Boone and the FFT panel had called White a riser. They looked silly for 56 minutes and brilliant for 4.

## 04 JEANTY: 51 MENTIONS, 2 CARRIES

The week's most-discussed player handed the backfield to Mike Washington Jr. (25 carries). Heath called Jeanty "a disaster." Adam (W&L) still took him over Coleman ROS. One of them gets to be right in December.

## 05 ALLGEIER 36.1, NICK: "FLUKY"

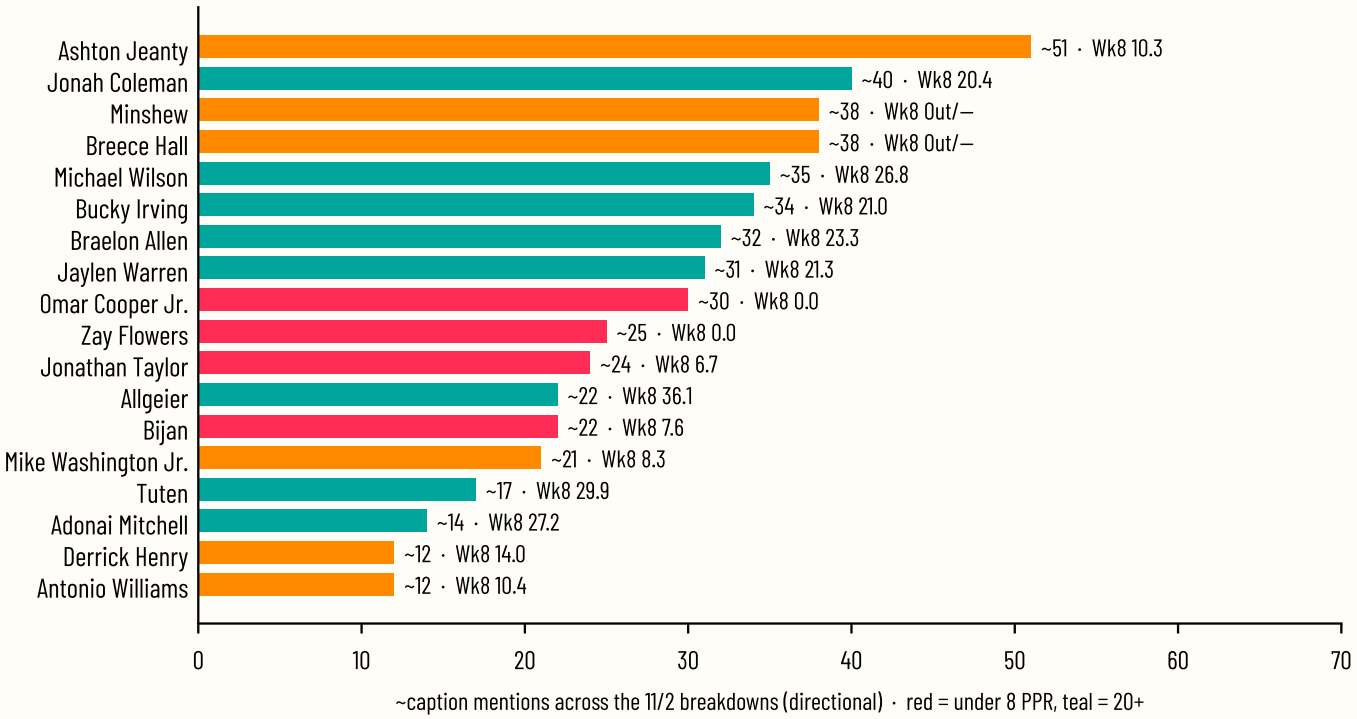

Minshew replaced Brissett, Love re-hurt the ankle and Bam Knight got concussed. Allgeier went 11-147-1 plus 5-44-1. Sal and Hayden say start him at SEA. Nick and Jamey say it won't repeat. Week 9 settles it.

## 06 JT TRADE SMOKE

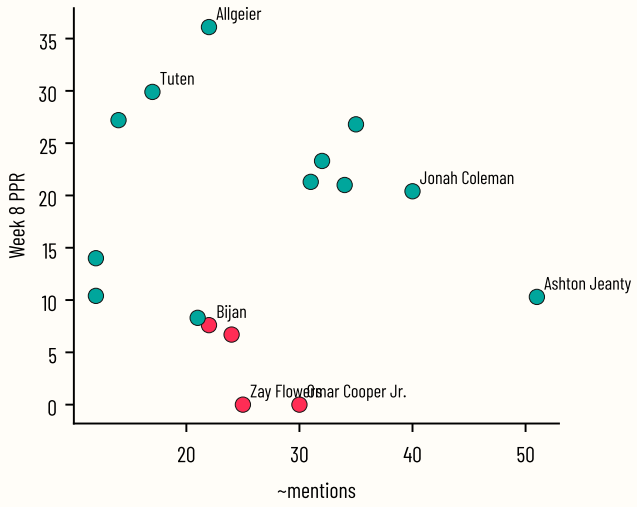

Hayden, Nick and Josh all see a Jonathan Taylor trade coming. Josh: JT to McGowan "is a goodbye if I've ever seen one." JT scored 6.7 for Taylor Snift. McGowan is rostered by Killa Walleye. Enjoy the uncertainty.

MOST-DISCUSSED PLAYERS

# TALKED ABOUT VS. ACTUALLY SHOWED UP

Mention counts are rough sums from each breakdown's caption counts in the 11/2 Host Wrap heat table. Caption garbles make them directional only. Breece and Minshew have no Week 8 line (Breece was Out; Minshew wasn't charted).

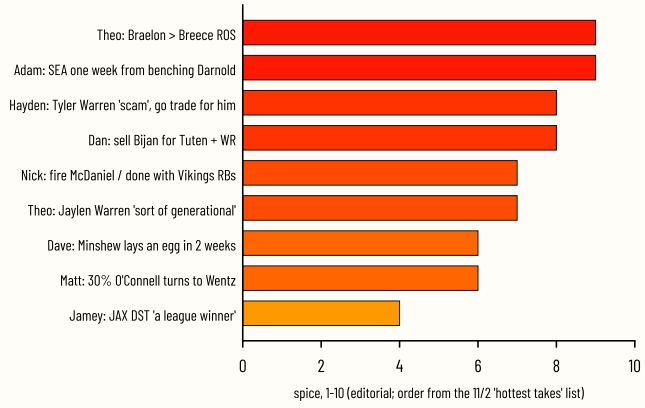

**The hype tax:** Jeanty drew the most mentions and scored 10.3. Allgeier drew 22 and scored 36.1. The less the podcasts talk about a guy, the more he apparently scores. Draw your own conclusions.

## RECEIPTS

- **Omar Cooper Jr.** ~30 mentions, **0.0** PPR, 0 targets. Jacob: don't panic, he's #1 in fantasy points per snap. It's hard to be #1 per snap when you get no targets.
- **Zay Flowers** ~25 mentions, 0 catches on 5 targets. Dan: "borderline a kill you when he's in your lineup." Freddy started him anyway.
- **Tuten** ~17 mentions, 29.9 (RB2). Dan has all the Jaguars, and that included the good one.
- **Michael Wilson** 8-111-1 on 15 targets (26.8). Dave immediately said sell high.
- **Bijan** 7.6 (RB29). Dan says sell. Adam calls it "the most obvious buy low in the world."

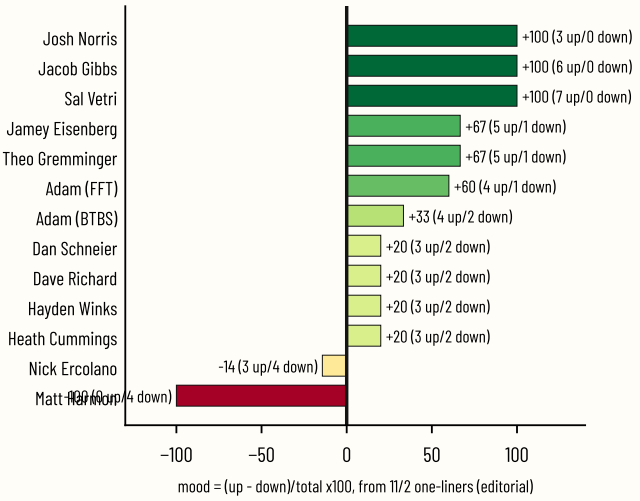

# WHO BROUGHT THE GASOLINE, WHO BROUGHT THE GLOOM

## HOT-TAKE METER

Editorial spice scores. The takes and their order come from the 11/2 "Hottest takes" list. Theo said his own take "might make me look absurd," so he scored himself and we just agreed.

## MOOD METER

Editorial count of bullish vs. bearish calls in each host's 11/2 one-liner. Sal (+100) has never met a waiver add he didn't love. Matt Harmon (−100) spent his whole segment explaining why everything is fake, including Gesicki's position.

**"This might make me look absurd."**
Theo Gremminger, Braelon over Breece ROS

**"I pray to God they trade for Jacoby Brissett."**
Nick Ercolano, on Baltimore

**"He does not play tight end. He plays slot wide receiver."**
Matt Harmon, on Gesicki (TE5 in Week 8)

**"Two weeks from now is going to just absolutely lay an egg."**
Dave Richard, on Minshew

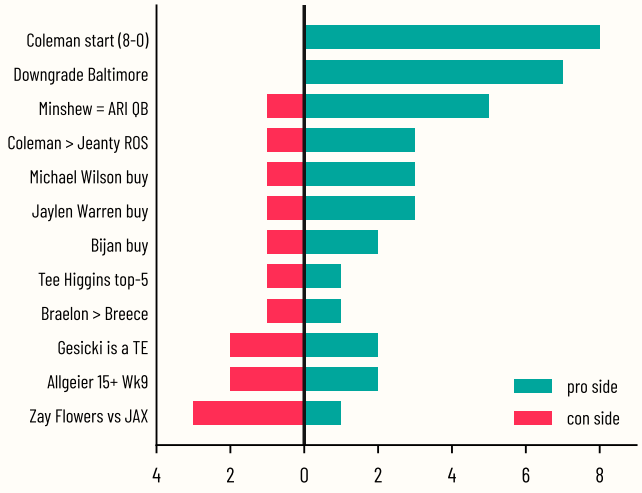

### 🪑 HOST WHO SHOULD BE BENCHED

**Sal Vetri** sits 10th at 31.1% (11-25-1) with 90 calls still pending. That's a lot of rope. His Thursday sell-high list included Fannin ("one 40-yarder"), and Fannin then dropped 23.4 for Freddy.

**host_leaderboard.md; salvetri/2026-10-29; Sleeper Wk8**

CONSENSUS VS CONTRARIAN

# GROUPTHINK, CIVIL WARS AND LONE WOLVES

Host counts per side, from the 11/2 consensus table and the 11 logged head-to-heads (H2H-1102-1..11). Teal = pro, red = con. Every H2H resolves in Week 9 or later.

## THE CIVIL WARS

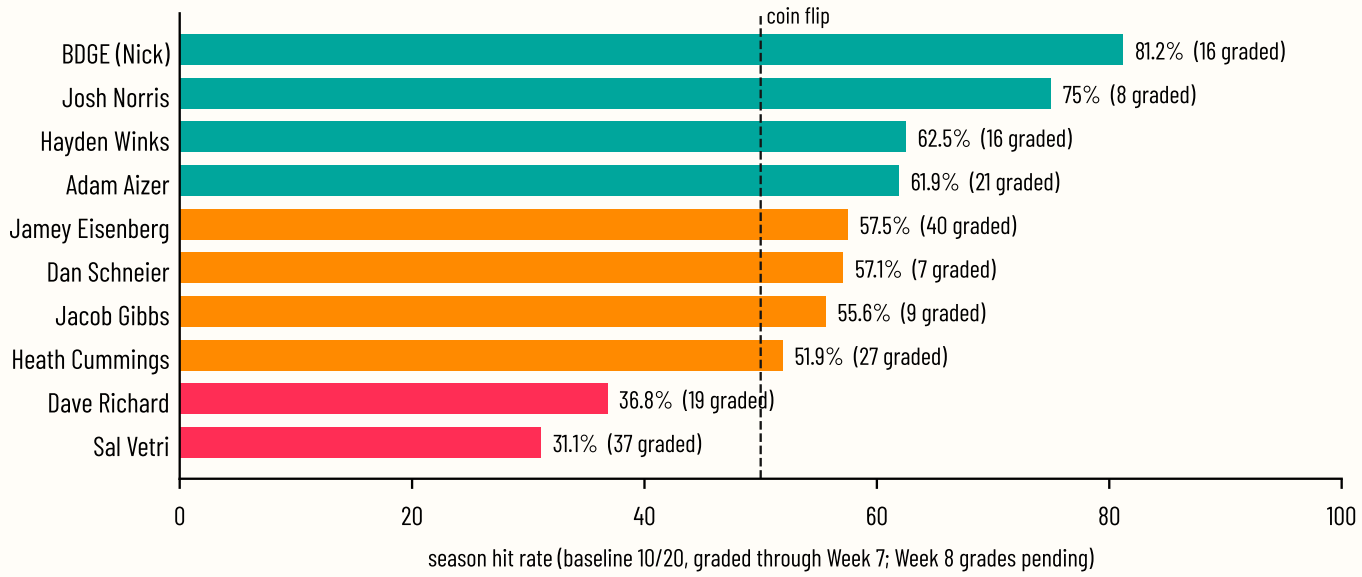

- **Breece's address:** Hayden: "There's no reason why Breece Hall should be on this team." Nick: he's active Week 9 and it's a committee.
- **Jaylen Warren:** Adam: "This might be the peak value." Theo: "sort of generational," with 20+ PPG after the bye.
- **Tee Higgins** (37.5, WR1 this week): Hayden says "top-five-ish." Adam says "more like wide receiver 12."
- **Gesicki:** Jamey and Josh call him a borderline starter. Matt and Hayden say he's "fluky" and "does not play tight end."
- **Michael Wilson:** Dave says sell. Heath, Theo and Jacob say buy.

## LONE WOLF OF THE WEEK

**Adam (BTBS):** Seattle is "maybe one week away" from benching Sam Darnold. Even his co-host Dan called it "one of the most outrageous takes you've ever..." Meanwhile Dan is calling Darnold a Superflex buy-low. One of them is going to be insufferable.

PREDICTION GRADES & SEASON LEADERBOARD

# THE REPORT CARD (WEEK 8 STILL IN THE OVEN)

From host_leaderboard.md, last updated Tue 10/27. Season baseline is Mon 10/20. All graded calls so far are Week 7: 94-92-1 (50.5%) plus 5 voids. That's the industry's collective expertise, and it's a coin flip with extra steps.

### 🏅 HOST OF THE MONTH

**Nick Ercolano (BDGE)**, 81.2% (13-3) and 3-0 in head-to-heads. He also ran the week's most-shared call: Coleman "basically a must start," who then scored 20.4.

**host_leaderboard.md; hostwrap 11/2**

### 🧱 RANKINGS, BUT WORSE

**Dave Richard**, 36.8%, and 18.2% (2-9) on ranking calls. **Heath** is 12.5% (1-7) on rankings, which is impressive in a way.

**host_leaderboard.md, by call type**

### OPEN WEEK 8-9 TICKETS (TO BE GRADED)

| CALL | WHO | EARLY READ |
|---|---|---|
| Hampton = consensus fade | FFT/Sal board | ✅ 6.95 |
| Rachaad White low-end RB2 / riser | FFT panel, Boone | ✅ 14.00 |
| Jordan Mason over Charbonnet/Coleman/Love | FFT | ❌ 4.50 |
| Swift over Chase Brown | Heath, Adam | ⏳ MNF |
| Zay Flowers 10+ vs JAX (Wk9) | Adam vs Jamey/Theo/Dan | ⏳ |
| Minshew egg in two weeks | Dave | ⏳ |

103 new calls logged on 11/2 (FFT, BTBS, BDGE, Yahoo, Sal), plus 11 cross-show H2Hs (36 host-side rows). All pending.

DYNASTY BUY/SELL CORNER

# BUY THE DIP, SELL THE FLUKE, IGNORE SAL'S TIMING

## BUY

- **Jonah Coleman**: Sal's buy-low (10/28) before the coalition formed, then 20.4. A rare Sal W.
- **Tuten**: Dan, Jacob and Nick ("must start"). 29.9.
- **A.J. Brown**: Sal: "value has never been lower" (94% routes on the bum ankle).
- **Bijan**: Adam and the FFT panel: "the most obvious buy low in the world." Dan disagrees.
- **JSN**: Heath's new dynasty WR1, ahead of Chase (FFT Dynasty 10/30).
- **Darnold** (Superflex): Dan's buy-low. Adam thinks he's about to get benched.

## SELL

- **Jonathan Taylor**: Heath: sell unless you're elite, and McCaffrey probably outscores him ROS. Hayden: trade him.
- **Jaylen Warren**: Adam: "peak value." (Theo would buy.)
- **Michael Wilson**: Dave: sell high into Minshew.
- **Judkins**: Sal's sell-high (2 TDs, 1 target). BTBS flags 24% routes or less three straight.
- **Fannin**: Sal said sell after "one 40-yarder." Fannin then scored 23.4 for Freddy. Hold your laughter, and maybe hold Fannin.

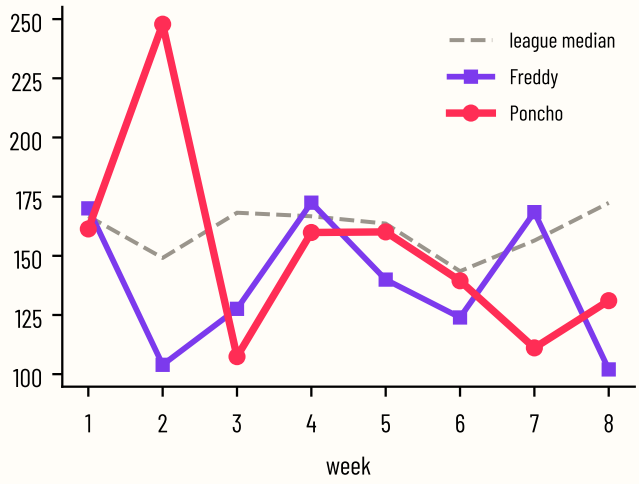

## FOR AMON A BOAT!

Heath moved **Kenneth Walker to dynasty RB4** (10/30), so his value is at its peak. KC is "wheels up" for four weeks (Nick). Freddy owns the handcuff, **Emmett Johnson** (27.30 on his bench; Sal: "arguably the best handcuff"). There's a tradeable TE surplus too: Bowers, Warren and Hockenson. Warren (5.8 on 10 targets) is a Hayden "scam... you have to be trying to trade for." So don't sell low. Recommendations only. Nothing gets sent without your OK.

YOUR TEAMS · SLEEPER

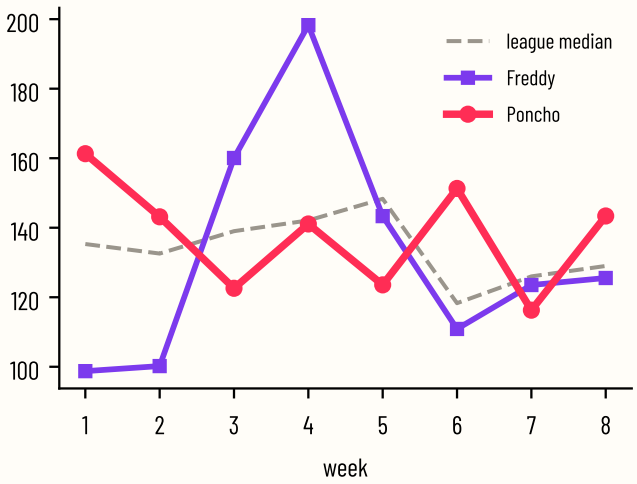

# TAYLOR SNIFT & AMON A BOAT!

### MAIN · TAYLOR SNIFT · 2-6 · L 131.05-211.75

durk18's Amon Raw, Next Question got Tee Higgins 42.25 and Braelon 33.55. Your RB room: JT 10.20 (lost fumble), Gordon 12.65, Hampton 6.95, Mason 4.50. **Tyler Bass (15.90) outscored four of your skill players.** Week 9: vs Malik'in Swifts Nudes. Free agents to consider: Gainwell, Mike Washington Jr., Adonai Mitchell, Keenan Allen. Cut or bench candidates: Hampton, Mason, Keon Coleman (1.4).

### DYNASTY · AMON A BOAT! · 4-4 · W 143.38-125.54

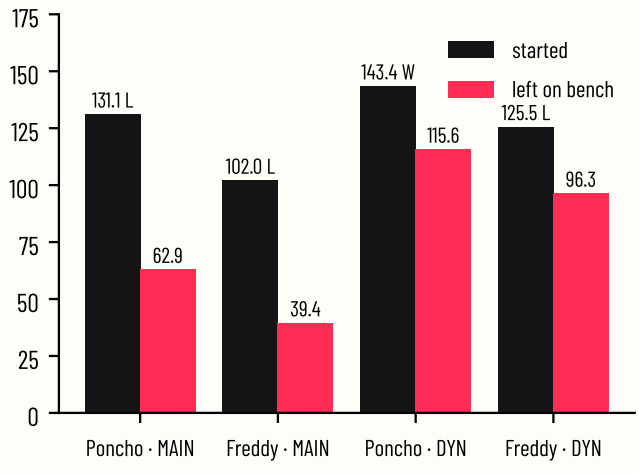

Bowers 28.20 (7/10, 92, 2 TD) and Braelon 23.30 (21-147-1). Warren was the bust at 5.80 on 10 targets. Week 9: vs Texas Rattlesnake (0-8, the league's punching bag). **Start Keenan Allen over Caleb Douglas**: Keenan scored 13.7 to Douglas's 8.3. Dowdle and Rodgers are on bye (PIT).

### 🤡 PONCHO'S OWN BAD CALL OF THE WEEK

**Mahomes, 39.90, on the MAIN bench.** Josh Allen was fine (35.20), so this is a crime of excess, not of need. In DYNASTY you left **115.62** on the bench, including Lawrence 19.40, Hockenson 15.80 and Willis 14.64. You won anyway. A win doesn't wipe the evidence.

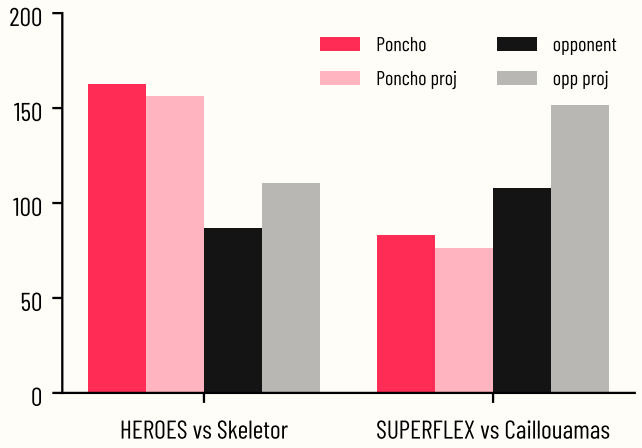

**Sleeper Wk8 matchups**

### BENCH CRIMES, WEEK 8

Points started vs. left on the bench (Sleeper). Both managers are guilty. Only one got away with it. Freddy's DYN bench (96.28) outscored the margin he lost by more than five times over.

# THE COOK KING SHOW & JACKSON MY PENIX

Yahoo live pull, Mon 11/2 8:50 PM ET (MNF CHI@SEA, Q1). Faded bars are projections. Final scores weren't re-pulled after MNF.

### HE-MAN'S HEROES (193237) · THE COOK KING SHOW · 2-5 · RANK 10 · $485 FAAB

**162.64 vs Skeletor 86.62** (proj 156.06–110.17), so basically a W and 3-5. Mahomes 32.94, Jacobs 28.45 and Cook 23.35 carried. **Keon Coleman (1.4) is your weakest starter.** Kittle comes back from bye at TE over Tyler Warren (5.8). Henry (16.75) was downgraded on every show; treat him as a flex now. The pending Flournoy claim runs Nov 4. With $485 in FAAB, consider a cheap MarShawn Lloyd or Pierre Strong stash as Jacobs insurance, if either is free.

### SUPERFLEX (193255) · JACKSON MY PENIX · 2-5 · RANK 12 · $200 FAAB

**82.8 vs Caillouamas 107.55** (proj 76.22–151.51), likely an L and 2-6. Your QB slot was **Lamar (Out): 0.0.** Your superflex slot was **Penix: −0.65** (4 INT in a 16-0 shutout). **Braelon Allen scored 29.55 on your bench.** Your team is named after two quarterbacks, and together they scored −0.65. Pending claims: **$150 Minshew (drops Flournoy)** and $50 Omar Cooper Jr. (drops Keon Coleman). Recommendation: dropping Flournoy goes against Sal's and Jamey's floor calls (13.35 this week), so make **Andrews (4.4)** or **Kamara (bye)** the drop instead. That needs your OK. Move Lamar to IR if a slot frees up (DeVonta Smith holds it now).

### 🏆 BUST OF THE WEEK (SELF-INFLICTED DIVISION)

**Jackson My Penix's QB room:** 0.0 + (−0.65). In a superflex league, that's not a lineup, it's a cry for help. Braelon's 29.55 on the bench is the knife twist.

**myleague/yahoo/hemans-new-super-flex.md (8:50 PM ET 11/2)**

FREDDY WATCH

# A TRIBUTE TO FREDDYB2, IN FOUR ACTS

### ACT I · THE CORPSE AT QB

MAIN: Lamar (IR) started and scored 0.0. Zay Flowers 0.0, Metcalf 1.4. Dowdle scored 16.6 on the bench. Final: L **102.00–182.35** to dmajewski11. He's 3-5. Freddy's two Ravens scored zero combined, and the team was named after them. As of Tuesday, Lamar is **still in his Week 9 QB slot**, and his only other QB, Rodgers, is on the PIT bye.

### ACT II · THE BENCH OPERA

DYN: Emmett Johnson 27.30 (taxi), DeMario Douglas 17.60, Corum 13.30 and Sampson 12.90 sat while Reichard kicked for 1.00. That's 96.28 on the bench in a 17.84-point loss. Hunter Henry (Out, foot) is still in his starting lineup.

### 🌸 FREDDY'S LINEUP BLUNDER OF THE WEEK

Starting an injured Lamar for 0.0 in MAIN while renaming the team "Zay It Ain't So." Self-aware, at least.

**freddy/2026-11-02; Sleeper**

### 🧠 EXPANDING BRAIN AWARD

He was up 33.88 heading into SNF and up 2.86 with 3:43 left. Then White scored and he lost.

**wrapups/2026-wk08-sunday-final.md**

### TRADE IDEAS ON ICE (YOUR OK NEEDED, NOTHING SENT)

MAIN: he needs a QB, and you have Mahomes (39.90) on your bench. DYN: Lawrence for Douglas + Corum, per his spotlight. Emmett Johnson would give you Walker insurance. These are recommendations only. We don't message Freddy.

WEEK 9 CHECKLIST

# DO THESE, PONCHO. PLEASE.

| LEAGUE | MOVE (RECOMMENDATION ONLY) | WHY |
|---|---|---|
| SUPERFLEX | Get Lamar out of the QB slot; switch the Minshew claim's drop to Andrews or Kamara | 0.0 points; Flournoy's 11-12+ floor (Sal, Jamey) |
| SUPERFLEX | Start Braelon over Mason | 29.55 on the bench vs 4.0; Nick is "done starting any Vikings running back" |
| HEROES | Kittle back in at TE; bench Keon Coleman | Bye's over; Keon scored 1.4 |
| DYNASTY | Keenan Allen over Caleb Douglas | 13.7 vs 8.3; Sal calls Keenan a WR2 |
| DYNASTY | Backup QB: Willis or Lawrence | Willis is the consensus streamer; Lawrence gets the JAX TNF bump |
| MAIN | Look at Gainwell / Mike Washington Jr.; bench Hampton/Mason | Gainwell 25-140; Washington got 25 carries |
| ALL | Byes: PIT, TEN | Dowdle, Rodgers, Metcalf (Freddy) are out |
